

ATG Access Ltd

Ernest Doe specialises in sales and service of machinery; from garden mowers and strimmers to combine harvesters and construction excavators.

This year ATG Access have protected a further 11 of Ernest Doe's sites in the South and East of England, the latest install being their new branch – Braintree in Essex.

Here the solution was to provide bollards that could provide perimeter protection and prevent large agricultural machinery from being stolen as well deterring the theft of high value hand-held items such as chain saws.

ATG Access provided manual bollards which incorporate a unique lift assist mechanism which can decrease the lifting weight of the bollard by up to 80%.

Other Ernest Doe stores secured this year:

Fulbourn Cambridge
Benington Hertfordshire
Fakenham Norfolk
North Walsham Norfolk
Dartford Kent

Maldon Essex
Rochford Essex
Colchester Essex
Woodbridge Suffolk
Sudbury Suffolk

Alan Ringer, Project and Property Manager at Ernest Doe chose ATG bollards many years ago and has used ATG ever since. Alan carries out his own site surveys and contacts us with his requirements.

Case Study - Ernest Doe

Manual Bollards

- Location:** Various
- Brief:** To protect agricultural machinery from being stolen
- Solution:** ATG Access 114/670 Lift Assist
