

ATG ACCESS

ATG Access SP 400 Static

The SP400 Static is an aesthetically pleasing anti-terror/high security bollard.

The ATG Access SP400 Static is part of the ultimate security bollard family. This product is designed to protect at the PAS68 / K4 level of fully laden 7.5 tonne at 40mph. This bollard is available as a standard fixed bollard with a civil installation depth of 750mm. It is also available as a medium depth foundation bollard with a civil installation depth of 400mm.

The SP 400 is a low cost solution for stopping a vehicle of 7.5 tonnes travelling at 40mph, while being aesthetically pleasing. This product has been installed at a wide variety of sites around the world ranging from commercial, industrial, and governmental, to heavily pedestrianised areas.
