

ATG Access Ltd

ATG Access working with our exclusive agent K-Max continues to build an excellent list of clients and sites in China.

This VIP entrance of a major Government building in Shanghai has been strengthened with a set of stainless steel ATG Globoll bollards.

These bollards provide an aesthetically pleasing line of security with access control by key fob by the 24hr security station.

This project was carried out in partnership with our exclusive agent for China, K-Max and their Shanghai Business partner.

Case Study

Access Control -Perimeter Security

Location: Government Building, Shanghai, China

Brief: To control vehicle access and add a level of security to a VIP entrance of a government building

Solution: ATG Access Globoll automatic stainless steel bollards.
