

ATG Access Security Bollards

Garage Forecourt and Perimeter Protection

Our product range is tailor made for garage forecourt protection. Manual retractable security posts protect when in position and telescopically retract under the ground when access is required. Static bollards offer permanent protection.

All our products are fully accredited and we are the only bollard company to be part of the Aviva approved supplier scheme.

Motor vehicles are amongst the most often stolen items in the UK.

An unprotected motor dealership is a prime target for would be thieves.

Bollards can provide the protection to ensure your stock; your livelihood and your sales figures are not affected.

Insurance company backed and fully accredited equipment and the reputation of a company dedicated to providing first class products and service.

Our bollards are fully serviceable and designed to be modular meaning you can replace parts of the equipment or interchange different designs or corporate colours.

Any or all of our bollards can be utilised for any situation, please see our brochure for the full product range, the products we have shown here are those most often selected for forecourt protection.

*Our unique lift assist option reduces the lifting weight of the bollard by up to 85% and also acts as a damper when lowering the bollard.

We also manufacture a complete range of static and removable hoop barriers available in galvanised, black, RAL colours or stainless steel.
