

ATG Access Ltd

Case Study

Manual Retractable Bollards

Location: Hamptons International

Brief: Block access to unauthorised traffic

Solution: ATG Access Retractable Manual Bollards

The ATG Access Retractable bollards are decorative bollards which compliment the area and blend in with other street furniture

Unauthorised vehicles were using the parking bays outside Hamptons development by the River Thames and also parking on the paved pedestrian area within the development.

The developers wanted a way to block access to unauthorised traffic whilst making it quick and easy for authorised vehicles to get through.

Traditional style bollards from our Retractable range were chosen to compliment the area and blend in with existing street furniture.
